INSTALL NOTES

- **VanS must be updated to version 7.00.07**
- Download and expand the installer files
- Update the server PROGS with current vs programs
- Run VansSetup.exe on the server, or if no TS machine then a workstation
- Execute Vans once setup is completed.
- Complete the SQL updates (might need more than one if back a few versions)
- See the VanSvs 8.00 SQL script for full database change details

WARNINGS

- All users must be out of Vans Visual Suite to install
- If pre-7.00, must manually apply the contents of VanSVS7_PreUpdate.exe (attach database and execute sql script).
- If pre-8.00 see the server install notes for special checklist items.

ENHANCEMENTS AND FIXES

TYPE	ID	DESCRIPTION
Added	2454	Moved help to the web

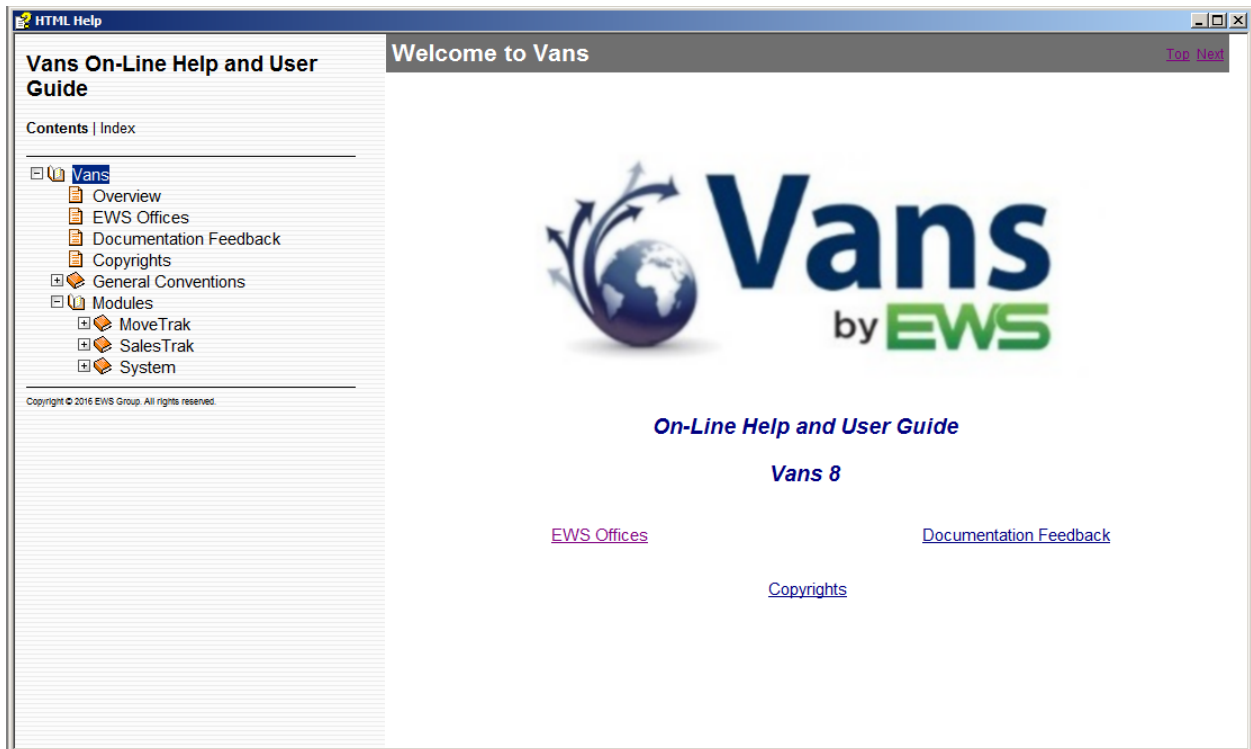

VANS

VERSION 8.00.01 RELEASE

OPERATIONAL NOTES

The application help has been moved from a distributed file to the web. This will allow the help to be updated much more frequently. The help is still accessed by either selected Help from the menu, or by pressing F1.

ON-LINE WEB HELP

The screenshot shows a web browser window titled "HTML Help" displaying the "Vans On-Line Help and User Guide". The page has a dark header with "Welcome to Vans" and a "Top Next" link. The main content area features the "Vans by EWS" logo, which includes a globe with arrows. Below the logo, the text "On-Line Help and User Guide" and "Vans 8" are displayed. There are three links: "EWS Offices", "Documentation Feedback", and "Copyrights". A left sidebar contains a "Contents | Index" section with a tree view showing "Vans" expanded to show "Overview", "EWS Offices", "Documentation Feedback", "Copyrights", "General Conventions", and "Modules". Under "Modules", "MoveTrak", "SalesTrak", and "System" are listed. A copyright notice "Copyright © 2016 EWS Group. All rights reserved." is visible at the bottom of the sidebar.
