Printing Information

Printed in the United States

MSWhse February 2024 Features

Transactions: Inbound

“Generate Manual Location Sheet” is now available within Inbound Transactions.

Manual Location Sheets are specific to a Customer and include the WRR Number; however, the rest of the *Manual Location Sheet* is left blank. This sheet is useful for when you wish to go into the warehouse and choose where the items will go. Then, the sheets are filled out with the Location, the Item Numbers, and the Quantity and given to the appropriate person who enters the information into MSWhse. This *Manual Location Sheet* is also available within the Inbound Processing.

Location
Customer OSG

WRR Number OSG-3
Item(s) & Quantity
Printed from Inbound Transaction 1010 on 02/21/2024 <small>Page 1 of 1</small>

Find the new Generate Manual Location Sheet feature by clicking the ellipses within the needed Inbound Receiving Transaction or Inbound Processing Transaction.

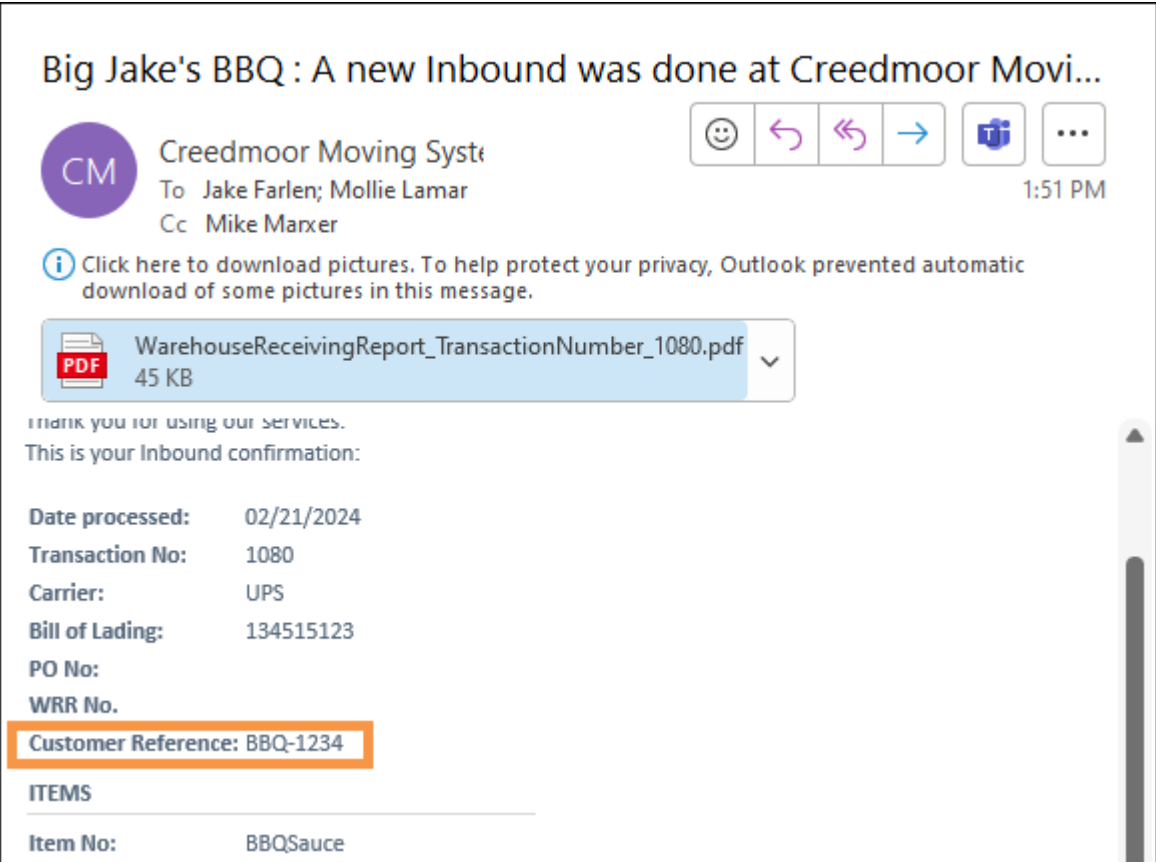

INTERNAL REFERENCE: WD-3982

Transactions

Certain emails now include the Customer Reference set on a Customer’s Profile.

The Customer Reference has been added to Inbound and Outbound Transaction emails. The Customer Reference is set within MSWhse > Customers > choose a Customer > Profile tab.

INTERNAL REFERENCE: WD-3912

MSWhse February 2024 Enhancements

Transaction: Outbound

Pick Ticket By Location has improved logic to generate a better form.

Because some Item Numbers, Descriptions, or even Location names being entered are longer than expected, the *Pick Ticket By Location* form was sometimes printing wonky. To improve the use of the form, the form was re-engineered to accommodate for such occurrences.

INTERNAL REFERENCE: WD-4111

MSWhse February 2024 Fixes

In addition to numerous other bugs for which documentation is not needed, the following case was resolved:

Move Location

When using Move Location, checking Generate Location now properly generates the new the new Location Sheet.

Previously, there was a bug, and the new Location Sheet was not generating. This has been resolved and works properly.
