MSWhse August 2023 Enhancements

Functionality

Processing has been enhanced in several areas to make processing in those areas faster.

As an example, it was taking too long for the available weight fields to load on outbound transactions, which was leading some customers to think the fields weren't there. Several areas, such as the example, will now processing more quickly.

WD-3857

Outbound Transactions

Vault Number and Pallet Number are included in Pick Tickets.

To further assist in your picking items, Vault Number and Pallet Number have been added to *Pick Ticket by Location* and *Pick Ticket by Item*. In the image below, notice that the pallet number and vault number are shown.

Pick Ticket							
Transaction No: 1052							
CREEDMOOR MOVING SYSTEMS & STORAGE							
Customer OLD WINE SHIPPING Requested by: Alisha Alexander Email: amalexander2251@yahoo.com Phone: 7192055693 Delivery PO No:				Shipping Carrier: UPS Freight Bill of lading: Shipping date: 08/22/2023 Time frame:			
Special Instructions				Total Item Weight: 120			
Location	Item	Description	Qty Remaining	Qty To pick	Inventory No	Qty Picked	Initial
AA064C P (P913)	26.5x19.5x15 Shipping Box	26.5x19.5x15 Shipping Box	0	500			
AA064L P (P912)	26.5x19.5x15 Shipping Box	26.5x19.5x15 Shipping Box	0	500			
D1A V (132)	Bar Chairs	Black seats and wood frame.	15	10

Outbound Transactions

Pick Tickets have renamed the column “Qty Available” to “Qty Remaining.”

This field was renamed to better reflect the data with that column: The data in this field indicates the quantity that remains after the items are picked. This change was made to both *Pick Ticket by Item* and *Pick Ticket by Location*.

Pick Ticket Transaction No: 1052 CREEDMOOR MOVING SYSTEMS & STORAGE					
Customer OLD WINE SHIPPING Requested by: Alisha Alexander Email: amalexander2251@yahoo.com Phone: 7192055693 Delivery PO No:			Shipping Carrier: UPS Freight Bill of lading: Shipping date: 08/22/2023 Time frame:		
Special Instructions			Total Item Weight: 120

MSWhse August 2023 Fixes

Inbound Transactions

ISSUE FIXED: Multiple attempts to save a transaction resulted in repeated errors; however, the transactions were saved.

When saving a transaction, an error message was received. Further attempts to save the transaction resulted in the error messages, as well. It was later determined that each attempt did create a transaction, which resulted in multiples of the transaction in the system.

INTERNAL REFERENCE:

WD-4006

Outbound Transactions

ISSUE FIXED: Pick Tickets and a Delivery Ticket were not rendering properly.

The Transaction Number was not rendering printing incorrectly on Delivery Tickets, as shown below. The same issue was also affecting the Warehouse Name and Total Item Weight when choosing *Generate Pick Ticket By item* and *Generate Pick Ticket By Location*.

Figure 1: Incorrectly rendered as Transaction Number is cut in half.

Figure 2: Correctly rendered.

INTERNAL REFERENCE:

WD-3985

Outbound Transactions

ISSUE FIXED: An Item stored on a Pallet (or within a vault) was being duplicated when the item is edited within Outbound Transactions.

Items that are stored on Pallet or in Vault Locations may have encountered this issue. To illustrate, this image shows the *Qty to be delivered* as 60 for an item and it is saved.

Current Locations				
Pallet	Vault	Location	Qty Available	Qty to be delivered
P932	-	AA011R ⓘ	40	60

The item is then edited. In this case, it is being edited in the Item Listing on the right side of the screen under Items.

1 Items					
	Item No North Carolina BBQ Sauce - 3gal	PO No -	Inventory No -	Serial No -	SKU No -
0 files	Item Name -	Description 3 gal jug of North Carolina style bbq sauce			

When the item opened to be edited, the item was duplicated on another line and the quantity altered (shown in the second line.)

Current Locations				
Pallet	Vault	Location	Qty Available	Qty to be delivered
P932	-	AA011R ⓘ	40	60
P932	-	AA011R ⓘ	-20	-60
