MSWhse March 2023 Fixes

Transactions Outbound: Pallet

Once a pallet becomes available, the pallet correctly shows as available.

When an outbound transaction involved items stored on a pallet, the pallet was not showing as available once the transaction was completed. The pallet was continuing to show a red dot in the pallet selector dropdown, even though it was empty. This has been fixed and pallets that are available will show green dots.

The screenshot shows a web interface for managing transactions. On the left, there are input fields for 'Quantity' (100), 'Qty Received' (100), 'Location 1' (100), and 'Vault'. A 'Shrink Wrap' button is at the top left. A 'Search pallet' dropdown is open, showing a list of pallets with status indicators (red or green dots) to the right of each name. The list includes P258, P259, P26, P260, P901, P902, P903, P904, P905, P907, PM38, RS10, RS12, RS14, RS19, and RS2. Pallet RS2 is highlighted with an orange box and has a green dot, indicating it is available. Other pallets like P258, P259, P26, P260, PM38, RS10, RS12, RS14, and RS19 have red dots, indicating they are not available.

Figure 1: Pallets available show green dots. Pallets not available show red dots.

Reports

For those Customers who have multiple Customer profiles, Transaction Reports generated for that Customer now appropriately include all transactions for all their Customer profiles.

When a Customer has several Customer profiles, Transaction Reports were not listing every transaction for every profile. For example, Brown Construction has three profiles:

- Brown Construction – Palmetto Hotel
- Brown Construction – Sweet Dreams Bakery
- Brown Construction – Time Out Bar

When generating a Transaction Report for Brown Construction, only the oldest transaction amongst all the profiles was listing on the report. With this fix, all transactions for all the Customer's profiles will list for time frame requested.

Billing & Payments

The search located within Generate Invoices is functioning properly.

When performing a search, the search was not listing every result. Now, know the listing is completed and captures all applicable results.

The screenshot shows the 'Generate Invoices' page with the 'Standard Invoicing' tab selected. A search bar in the top right corner contains the text 'acrobat'. Below the search bar, it indicates 'last generated by Joe Eckert on 12/19/2022 09:55'. A button labeled '12 Invoices' is on the left, and a blue button labeled 'Generate Invoices' is on the right. Below these is a table with the following data:

Customer	Warehouse	Invoice No	Amount	Regenerate	Invoice Email
Acrobat	Creedmoor Moving Systems	CM14-452	\$ 1.48	<input type="checkbox"/>	

A green 'Finalize' button is located at the bottom right of the table.
